

WEST PASCO MODEL RAILROAD DESIGN TEAM MEETING NOTES

DATE: 08/04/2023

ATTENDEES: Ralph, Bill, Tom, Neil, Keith

TITLE: Paper Mill Design and Yard Layout

Layout construction still very active. Bill worked on getting wires pulled to the programming track.

Neil and Keith waited until that area was clear to do some more conceptual layout work on the paper mill. Bill provided a hard copy of a conceptual layout for the staging yard. That was reviewed and adjustments made to support the paper mill addition.

The window sill is still an area of contention as to what will fit there and how to layout the power house and the wood receiving yard. No definitive decision can be made yet.

Asked Ralph to review and see if anything being figured would interfere with track coming in the room. None was noted.

A rough rendering of the new orientation:
