

WEST PASCO MODEL RAILROAD DESIGN TEAM MEETING NOTES

DATE: 08/23/2023

ATTENDEES: Ralph, Bill, Tom, Neil, Keith

TITLE: Tortoises appearing along with track

The tortoise effort is continuing with significant progress.

Bill obtained a 4PDT switch that may solve a potential issue with the programming track where a bridge entering the programming track could possibly cause damage to the command station. The test he performed acted as projected by isolating the program track.

The meeting room wall elevated section is complete. Mainlines heading onto the Port Charles lobe.

The paper mill has some simulated buildings and its own advertising:
